KOSICT

WHAT IS KOSICT?

KosICT is a tech festival which held its first edition in 2012 with the aim of bridging the gap between the local and international **ICT** markets by highlighting and bringing the latest technological trends and developments to the Balkans, through local, regional and international experts who would share their experiences and knowledge with the audience comprised out of software developers, ICT enthusiasts and experts, C-level Executives, Academia Representatives and Students.

Another very important goal of the KosICT tech festival is to **promote the local ICT sector** on an international scale through visitors from international companies attending KosICT, our partner associations and renowned speakers that grace the stages of KosICT and act as ambassadors for Kosovo and the local ICT sector by promoting their experience here to their colleagues, business partners, etc.

As a technology festival, KosICT is enriched by a few different elements including **two conference format stages** highlighting some of the latest topics and trends in the ICT industry, **an innovation fair** focusing on some of the most prominent start-ups, **a company and VET provider's Fair** and **a brokerage event** bringing together local & international businesses, **a future developer's corner**, and last but certainly not least, **two eSports tournaments** highlighting the talents among STIKK member companies (CSR Tournament and a professional one) with the aim of promoting the gaming community in Kosovo.

KOSICT

X EDITION SUMMARY

During the two days of the festival, a total of **54 speakers** (18 international and 36 local) explored topics like: eCommerce, CyberSecurity, Artificial Intelligence, Big Data Analysis, Internet of Things, Industry 4.0, Digitalization, Diaspora involvement, Women in Tech and many more.
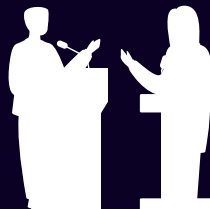

The KosICT tech festival was attended by over **5500 participants** in **three various platforms**; KosICT Web Platform (3023 visitors), YouTube (1654 views) and physically attended by 823 persons (251 women).

Continuing the tradition of supporting and promoting promising Start-Up's, KosICT once again welcomed the **Innovation Fair**, where **14 Start-Up's** highlighted their work. A total of **5 ICT companies** and **2 VET providers** were part of the **Companies Fair,** while **30 kids** from **Shkolla Digjitale, J-Coders** and **Robotics Lab of Finnish school** were part of **Future developers Corner**, sponsored by **Vigan Group.**

The Brokerage Event organized under the umbrella of **Enterprise Europe Network (EEN)** brought together **35 local and international businesses** for two days of **34 private meetings** and potential partnership explorations.

Two **E-gaming tournaments** were part of the festival as well.

MAIN STAGE

The main stage of the 10th edition of KosICT was moderated Global Public Speaking & TEDx Coach, Peter Hopwood who officially opened the festival by highlighting some of the main topics to be discussed over the two days. The welcoming note for the audience was made by the President of the Board of Directors of Kosovo ICT Association (STIKK), Ms. Donjeta Sahatçiu who also gave a brief description of the path and achievements of KosICT over the last 10 years.

The 10th edition of KosICT was honored by the presence of the Prime Minister of the Republic of Kosovo, Albin Kurti who spoke about the support the government has extended to the ICT community in Kosovo, as well as, some of the future plans related to the growth of the local ICT industry. The floor was then passed to the German Ambassador to the Republic of Kosovo, Joern Rohde who highlighted the potential of digitalization and ICT industry for the development of Kosovo and the whole region. His remarks were followed by USAID Kosovo Mission Director, Zeina Salahi.

"Events like KosICT demonstrate the path to Kosovo's economic development and self-sufficiency as one in which all of us play e key role. This is not only an important event for the ICT community but also for the private sector, diaspora, government, academia, associations, civil society, donors and other stakeholders in the region. I urge you all to take advantage of this forum", said Ms. Salahi.

KOSICT

STIKK KOSOVO ICT ASSOCIATION

USAID NGA POPULLI AMERIKAN OD AMERIČKOG NARODA

The first discussion panel of the 10th edition concentrated on the topic of Cybersecurity and was sponsored by ACCESS (Austrian Development Agency). The discussion was moderated by Mr. Kujtim Dobruna from ACCESS and the panelists who participated were Mr. Butrint Komoni from Void International, Mr. Granit Beka from PCB, Mr. Blerim Rexha from University of Pristina, Mr. Xhavit Gashi from Cactus and virtually Mr. Tony Pietrocola form Agileblu. The discussion aimed at looking Cybersicurity from two points of views, as a challenge and as an opportunity.

The discussion panel was followed by a presentation on: The German IT SME software industry as an opportunity for Kosovar IT developers by Tarek Annan founder of DigiKompass and Mr. Albert Vallendar, CEO of Job Impulse GmbH.

The next discussion panel focused on Kosovo Digital Agenda 2030 & Digital Innovation. The panel was moderated by Mr. Ahmet Jetullahu from Prishtina REA and the contributors to the discussion were Kosovo's Minister of Economic Development Artane Rizvanolli and virtually Ms. Vesna Prodnik, CEO of Vaffer LTD and Ms. Katja Mohar Bastar, director of Digital HUB Slovenia. This panel discussion was sponsored by ICT for Kosovo's Growth.

Next was delivered the first keynote of the 10th edition, by Ms. Arjodita Mustali, founder of Vigan Group who revealed to the audience, how a spontaneous solution evolved into a business solution, a topic she is an expert as a co-founder of 5 enterprises over the last years.
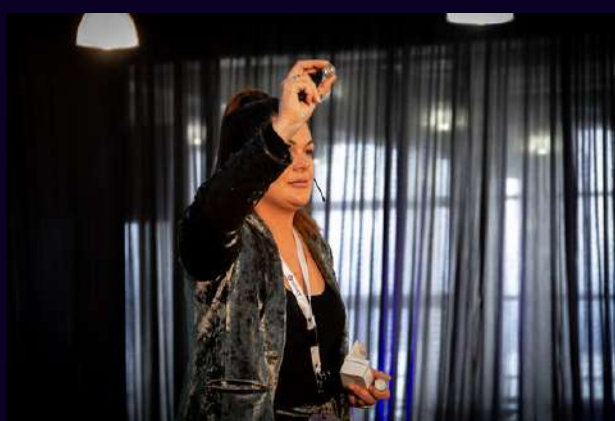

Three further presentations enriched the program of the first day at KosICT, the first focusing on Digital Transformation Readiness, the second on Free & Open-Source Software in Business and the third on The importance of applied research for innovation in industry. These topics were discussed by experts of the above-mentioned fields including: Michael Mann, team leader of the Innovate Jordan program, Axel Braun, COE of Axxite Business Consulting and Dr. Arianit Kurti, associate professor and head of informatics department at Linnaeus University in Sweden.

A further topic, Better together: Digital Ecosystem Development, sponsored by ITP Prizren, was brought forward by Mr. Simon Floeth, Head of Digital Transformation Center in ITP Prizren Mr. Muhamed Rexhepi from ITP Prizren, Mr. Driton Hapçiu ICT sector lead at USAID Compete and Mr. Enis Qafëleshi, executive director of Makerspace Prizren.

The first day at the Pro Credit Bank MAIN STAGE was concluded with a keynote in regards The story of Israel as a startup nation by Mr. Michael Mizrahi, head of the research, innovation and entrepreneurship authority at the Azrieli Academic College of Engineering in Jerusalem.

The second day of presentations and discussions at the Pro Credit Bank MAIN STAGE kicked off with a discussion panel on the importance of digital transformation for the development of private & public sectors, that brought together four distinguished speakers, Mr. Burim Balaj Head of Directorate for Rationalization of Administrative Porcesses at Agency of Information Society, Mr. Arianit Fazliu, CEO of Kutia, Ms. Zana Tabaku, CEO of APPDEC and Mr. Lulezon Jagxhiu Advisor to the Prime Minister on Information Technology. The panel was moderated by Mr. Durim Hoxha from ACCESS which also sponsored it.

Two further discussion panels sponsored by **USAID Compete** explored topics such as Start-up investment and Woman entrepreneurism and its impact in the industry. The panels were respectively moderated by Mr. Valon Canhasi CEO of Hallakate and Mr. Alejtin Berisha, Executive Chairman of Finnish Schools International. In the discussion participated experts of the abovementioned topics such as, Mr. Ardian Hoxha founder and Chapter President of the Keiretsu Forum SEE, Ms. Leonora Kusari, Regional Coordinator of European Bank for Reconstruction and Development, Mr. Visar Dobroshi Managing Partner in RECURA Financials, Ms. Zana Tabaku, President of WIT Cluster, Ms. Arta Shehu-Zajmi founder of Labbox and Ms. Donjeta Sahatçiu, CEO of Rrota Ms. Zana Budima CEO of SQA Consulting SEE.

Continuing with the theme of entrepreneurship, Mr. Zeev Zalevsky, Professor of electrical engineering and nanophotonics at Bar Ilan University gave a presentation on The power of light: The era of entrepreneurship and innovation in optics while Mr. Albion Sutaj, CEO of Kutia held a speech on Entrepreneurship & Business Growth. A discussion panel on the latest innovation in the banking market, 100% Online Account Opening was sponsored by Pro Credit Bank. The discussion brought together, Mr. Agim Kukaj, director of Department of Post-Telecommunications and Information Technology at Kosovo's Ministry of Economy, Ms. Erblina Byci, Head of Digital Channels and Business Support at Pro Credit Bank Kosovo and Mr. Andrei Georgescu, Member of the Board of Administration at Pro Credit Bank Romania and Managing Director at Quipu GmbH.

Focusing on Kosovo, a panel moderated by Communication expert, Mr. Veton Kasapolli, discussed on the topic of Intellectual Property & Creative Industries in Kosovo. The contributors to the discussion were Mr. Ioannis Kikkis, expert on EU IPR Project and Ms. Zjarrta Osmani Senior Officer at Kosovo National Audit Office.

A few of the other topics covered during the second day of the 10th edition of KosICT at the Pro Credit Bank MAIN STAGE included: Digital Transformation: Perception vs Reality, Teaching Online and the need of Ecosystems for Ecoleaders. The abovementioned topics were presented respectively by Ms. Melinda Pacolli, Professor & Digital Transformation Expert, Ms. Antigona Uka, Executive Director of Kosovo Center for Distance Learning and Ms. Drenusha Shehu, Aglie Coach at Raiffeisen Bank.
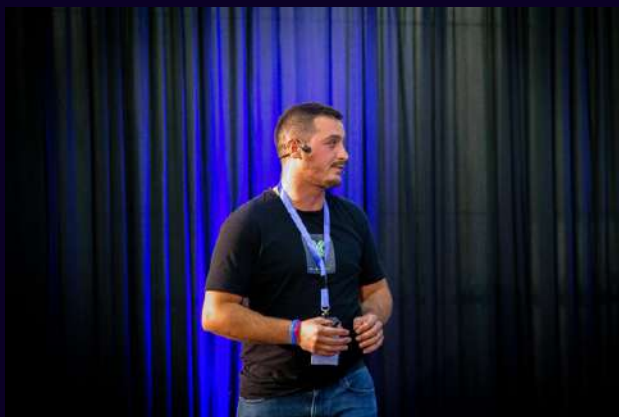

The 10th edition of KosICT tech festival was brought to a close by the executive director of Kosovo ICT Association (STIKK), Ms. Vjollca Çavolli, who as the organizer of KosICT thanked the speakers, sponsors & partners and the whole team for putting together the first edition after the difficult situation that was created by the Covid-19 pandemic.

KOSICT

Kutia DEVELOPERS STAGE focused on technical presentations offering insight into some of the latest programming languages, new features and developments, as well as, highlighted detailed technical aspects of topics like: Software as a tool for the digitalization of HR processes, Social Media as a tool for eCommerce, API development with Spring Boot & Kotlin, Brain drain to Brain Gain, The Future of eCommerce and Organization Healthy Check.

A discussion panel on How businesses from diaspora affect Kosovs's GDP, sponsored by the USAID Compete, brought together panelists Mr. Kujtim Tali, board chairman of 3CS, Mr. Fitim Rama deputy director at PECB, Mr. Vigan Disha managing director at SPEEX education and Mr. Berat Reçica business Unit Manager within evroTarget LLC. The panel was moderated by Mr. Dior Halili, Skills Development Specialist at USAID Compete Activity.

KOSICT

A few of the other topics covered at the Kutia DEVELOPERS STAGE included: Digital transformation of businesses, Establishing a national cybersecurity ecosystem and Transformation of the education system to a digital era. All these topics were sponsored by the ICT for Kosovo's Growth project.

Apart from the many interesting topics discussed during in the Kutia DEVELOPERS STAGE over two days, one of the events that attracted attention was the HACKATHON where the floor was left to six teams who presented digital solutions for helping the promotion of tourism. Altina Rexha and Dafina Elshani, two newly graduated software developers won first prize for their web application which aimed at helping artisans promote high quality products. The Hackathon was sponsored by ICT for Kosovo's Growth project.

KOS**ICT**

Continuing the tradition of promoting and promoting professional and competitive games, for the 10th edition, KosICT in cooperation with Xportal eSports, organized the CS:GO Charity Tournament, and DOTA2 KosICT Champions Professional tournament.

CS:GO Charity Tournament was organized between 10 teams from ICT companies. Team Starlabs and Frakton made it to the final that was held during the second day of KosICT Festival. Team Starlabs won the tournament. The winning team would chose the beneficiary of the donation for the charity.

DOTA2 KosICT Champions Professional tournament brought together the best DOTA2 players in Kosovo and the region for battle and prize final of 3,000 Euros. The four best teams from the qualifiers played the semifinals and the grand final during the two days of KosICT.

FUTURE DEVELOPERS

In this edition of KosICT was organized the children's corner "Future Developers". Young ICT enthusiasts aged 6 to 16 years old, presented their work and highlight their skills on the stages of KosICT.

30 kids from Shkolla Digjitale, J-Coders and Robotics Lab of Finnish school were part of Future Developers Corner, sponsored by Vigan Group.

The jury selected by the organizers of KosICT evaluated their projects, and made the selection of the first three awards.

Also J-Coders donated 30 lab box kits for all the participants in the Future Developers Corner while SQA Consulting provided the price for the winning teams, a Mana monthly subscription card.

INOVATION FAIR

Continuing the tradition of supporting and promoting the work of promising regional startups, coming from the Kosovo Innovation Center (ICK), another important part of the tenth edition of KosICT was innovation fair. 14 new and innovative startup companies, were presented at this year's fair.

During the two days of the festival, the selected startups had the opportunity to tell more about their work, passion for technology and entrepreneurship and discuss with participants about potential products and investments. Also, one of the stands of the innovation fair was reserved for the ICT project for Kosovo's Growth, in which they focused on the main goals of the project and the participants had the opportunity to be informed about the different parts of the project and how they can benefit from it.

The following Start-Up companies have participated in the Innovation Fair of the tenth edition of the KosICT technology festival.

GREENERGY

GREENERGY makes healthy living easy through exclusive, unique and organic Greenergy products, that aren't likely to be found anywhere else. The Greenergy platform provides daily news regarding the environment, offers the chance to order online and learn about a healthier lifestyle.

LIFESTYLEDIAGNOSTIX
http://www.lifestylediagnostix.com/

Lifestylediagnostix is developing lifestyle screening systems to help people manage their health and reduce the risk of several diseases or negative health outcomes. Lifestylediagnostix offers measures to prevent the disease while being healthy by testing without side effects.

GoBeyond

GoBeyond aims to tackle the global protein dilemma. Land is limited and by 2030, we will have a global deficit of 80,000,000 tons of protein, which is needed for feed and food. New protein sources are required. Insects are predicted to be a promising alternative. The goal is to achieve a monthly production volume of 15 tons of high quality and zero-waste insect protein by 2027 trough continuous research, the development of industrialized processes and technology kits giving farmers access to a new agricultural segment.

Mercury Robotics

Mercury Robotics is focused in the manufacturing of industrial automation devices for the ultimate goal of precision and efficiency in production. Using advanced technologies, these devices offer solutions to meet the requirements of manufacturers even in exceptional times such as lack of manpower, pandemics and long working hours.

NERDY CREATIVE
http://www.nerdycreative.ch/

Nerdy Creative is a software development company specialized in digital solutions. We help clients solve problems by creating, designing, and maintaining brands, websites, and apps. The team works with startup businesses, individuals, organizations, and enterprises from various industries, helping them create and launch products that are used by millions of customers around the world.

Stress Free Corner
http://www.stressfreecorner.co/

Stress Free Corner is an online resource to facilitate the provision of psychological and therapeutic support, accessible to all, at any time and with a holistic approach, hence contributing to physical and mental well-being. Stress-Free Corner is focused on body-oriented psychotherapy and counseling psychology.
Your Appropriate Stress-Management Platform!

PIKA

Pika is a price and qualities comparison platform build specifically for the Albanian Community. It helps user save money and time while buying online. This will all be made possible with our high-end technology that scrapes the web and helps users find, compare and choose the product they desire with just a few clicks.

LUA

LUA's mission is to bring more eco-friendly technology to agriculture, reducing pollution and costs, increasing field and plant health and enabling farmers to monitor their crop over and over again even without being physically there.

RRITU E MËSO
https://rrituemeso.com/

RRITU E MËSO platform aims to educate and entertain children. Considering the digitization of activities and children's access to technology, RRITU E MËSO provides safe content, at the same time, educational and entertaining. Let's grow while learning through games.

LABBOX
http://labbox.education/

Labbox is a learning system of electronic building blocks, designed to empower every kid to learn how technology works. The electronic blocks of Labbox are designed to enable learning from mistakes and so provide an increased opportunity for kids and youngsters to learn and build with technology. With Labbox kids can build anything from a flashlight to a smart machine that knows its surrounding.

UDHË

Udhë has the largest carpooling community in Kosovo with over 15,000 members. Udhë is a platform that aims to find an empty seat filled with good company for everyone. The app offers a free method of travel which is made possible through connecting different people with the same destination.

PYPER
http://pyper.info/

Pyper is a research company operating in Kosovo and overseas. Given the lack of data for a successful market presence and access, Pyper provides qualitative and quantitative data for businesses operating in the market as well as those waiting to penetrate it. Pyper helps companies develop based on reliable data and not on intuition.

GET FAST CAST
http://www.getfastcast.com/

Get Fast Cast provides an innovative platform, where producers, directors and photographers can easily find their role for specific casting Projects. Get Fast Cast in nearly one year implemented around 60 local and international casting Projects.

SAKUSHTON
https://www.sakushton.com/

Sakushton is a digital platform that is specialized in market research and pricing in Kosovo. The platform does analysis and research in the market in the constant effort to make the information as accurate as possible.
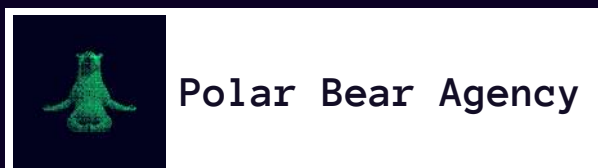

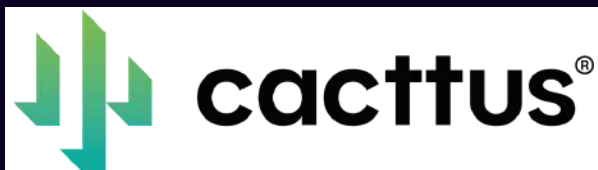

KOSICT
